

Website Redesign Proposal

A stronger digital presence for a 20-year leader in Japan

Prepared for	Sadiatec Co., Ltd.
Client website	sadiatec.com
Prepared by	Jamal Shah, Techmirai
Date	May 16, 2026
Reference site	careerlinkfactory.co.jp

This proposal outlines a custom-built professional website to strengthen Sadiatec's digital presence across all business units.

1. We Understand Your Business

Sadiatec Co., Ltd. was founded in Japan in 2005 and has grown into one of the most trusted multi-sector companies serving the South Asian community in Japan. With offices in Japan, Bangladesh and Malaysia, yearly revenues of approximately ¥500,000,000, and major partners including NTT, KDDI, SoftBank and Telstra — your track record is formidable.

Your business spans telecommunications, IT recruitment and dispatch, export-import trading, publishing (a monthly Bangla magazine with 30,000+ readers), and NPO activities. Your current website does not reflect this depth or authority. A redesigned website will immediately establish trust with new clients, international partners, and candidates.

2. What We Are Proposing

Techmirai will design and develop a fully custom, professional website for Sadiatec — built to the standard of Japan's leading HR and staffing companies, mobile-first, fast, and multilingual.

SERVICE	WHAT IT DELIVERS
Custom Design	Professional Japanese corporate aesthetic. Trustworthy, clean, no clutter.
Mobile-First	90% of users visit on phones. Built for mobile from the ground up.
Multilingual (JP/EN/BN)	One-click language switch. Bengali content for your Bangladesh community.
SEO & Performance	Fast loading. Google-indexed. Works on slow connections.
WhatsApp Integration	Floating button visible on all pages. Direct messaging to your team.
IT Recruitment Hub	Dedicated page showcasing your licenses and HR dispatch services.
Telecom & Products	Calling cards, WiFi rental, SIM products displayed clearly and visually.
Study/Work in Japan	TITP, SSW, Engineer visa, Student pathways — structured and visual.
Ongoing Support	Monthly updates. News posts. New services added as you grow.

3. Recommended Homepage Structure

Based on successful HR and staffing websites in Japan (including careerlinkfactory.co.jp) and Sadiatec's business areas, we recommend:

SECTION	PURPOSE
Hero Banner	Video / image + '20 Years of Trust in Japan' tagline + Apply / WhatsApp CTA
Trust Bar	NTT, KDDI, SoftBank logos + government license badges
Business Units	Cards for Telecom, IT Recruitment, Study/Work, Export-Import, NPO, Magazine
Why Sadiatec	20 years · 3 countries · Government licensed · 30,000+ monthly readers
IT Recruitment	Services, industries, dispatch model, how to apply
Study & Work in Japan	TITP, SSW, Engineer Visa, Master's/PhD — visual step-by-step
Success Stories	Video interviews and testimonials from people you've helped
News & Updates	Immigration law changes, job openings, telecom offers
Contact	Form, WhatsApp, phone, 3 office addresses
Footer	All links, licenses, language switch, social media

4. Technology & Design

Fully custom-coded, not a template. Built for performance, credibility and long-term maintainability.

Component	Technology
Frontend	Next.js + React + Tailwind CSS (fast, SEO-optimised)
Animations	Framer Motion (smooth scrolls) + Lottie (vector icons)
Media	Cloudinary — fast loading, global CDN
Multilingual	i18n routing — Japanese, English, Bengali with URL-based switching
Hosting	Vercel — enterprise-grade, always online, zero downtime
Forms & Chat	Server-side contact form + WhatsApp floating button
SEO	Server-side rendering, structured data, Open Graph tags

5. Ongoing Partnership

We don't just build and leave. Techmirai offers continuous partnership so your digital presence grows with your business:

- **Monthly content updates** — news, law changes, job openings
- **New service pages** — added as business expands
- **SEO monitoring** — tracking and improving search rankings
- **Performance reports** — monthly visitor traffic and lead summary
- **Priority support** — issues resolved within 24 hours
- **Magazine promotion** — Bangla publication featured on site
- **Social integration** — website synced with your social channels

6. Timeline & Next Steps

Step	Action	Owner
1	Review proposal and request changes	Sadiatec
2	Confirm services and pages to include	Together
3	Share photos, logos, licenses, content	Sadiatec
4	Draft text and design mockups	Techmirai
5	Review and approve design	Sadiatec
6	Full development and testing	Techmirai
7	Launch on sadiatec.com	Together
8	Ongoing monthly partnership	Techmirai

Timeline: Full website ready in 6–8 weeks from confirmation. Phased launches available — e.g., Telecom first, then IT Recruitment, then Study/Work.

7. Agreement to Proceed

Please review and indicate your decision below. Signing confirms agreement to proceed with the project.

- ☐ I agree to proceed with the project as described
- ☐ I do not agree / I have changes to discuss

Sadiatec has spent twenty years building trust across three countries. Your website should quietly and confidently reflect that — giving every visitor an immediate sense of who you are and how you can help.

With respect,

Jamal Shah
